The battery storage component is crucial for managing the intermittent nature of solar power and ensuring a reliable supply. This ...

A major solar-plus-storage has been approved by the Government of Uganda, with the project set for Kapeeka Sub-County, Nakaseke District, approximately 62 kilometers ...

Designed for Plug and play operations, the ZSC range of mobile solar power is easy to setup and commission. The compact container is easy to transport and is a low maintenance asset on site.

SustainSolar deploys off-grid solar-battery systems in Uganda, supporting rural dairy cooperatives and enhancing energy access through innovative clean energy solutions.

With Uganda's solar potential, Station Energy has developed an innovative concept of solar cold room for fresh product refrigeration/freezing in remote areas.

This modular system efficiently stores solar energy, ensuring a stable power supply with lithium battery technology, advanced BMS, and a weatherproof container for durability and reliability.
