As Ankara continues its green transition, the synergy between photovoltaic generation and smart energy storage creates unprecedented opportunities for sustainable growth.

This system is designed with 4 x 200kWh lithium batteries, which store more energy on rainy days and without sunshine. Let local farmers access electricity at any time.

Enter lithium-iron-phosphate (LFP) batteries--the unsung heroes in Ankara's new municipal storage projects. Unlike traditional lead-acid systems, these units maintain 95% efficiency ...

The answer lies in its growing portfolio of installed energy storage projects. As Turkey's capital races toward its 2030 renewable energy targets, these projects are not just ...

We make mobile solar containers easy to transport, install and use. Make the next step towards renewable energy with our Solarcontainer! The ...

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...
