What batteries do I need for my solar system?

We have 24V and 48V lithium solar batteries to fit you with the right system for your solar application! BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application. Browse our products today to find what you need.

Are bigbattery solar batteries safe?

BigBattery off-grid solar batteries, made in the US, are the safest and most secure option for any solar application. With built-in BMS and numerous safety features, you can rest easy and let our solar battery do the work for you. We have 24V and 48V lithium solar batteries to fit you with the right system for your solar application!

What is a plug & play lithium-ion battery storage container?

Plug&Play lithium-ion battery storage container; Various usage scenarios of on-grid, off-grid, and micro-grid. All-in-one containerized design complete with LFP battery, bi-directional PCS, isolation transformer, fire suppression, air conditioner and BMS; Modular designs can be stacked and combined.

Which battery bank is best for a home solar panel system?

Home solar panel systems need a way to store all the energy they produce, which requires effective, efficient and powerful solar battery banks. BigBattery off-grid lithium battery banks are made from LiFePO4 cells, which are the best energy source because they store more energy than any other lithium or lead-acid battery.

Browse through our comprehensive selection of matrix series solar container lithium battery pack to pinpoint the perfect solution for your needs.

This all-in-one containerized system combines an LFP (LiFePO4) battery, bi-directional PCS, isolation transformer, fire suppression, air conditioning, and an intelligent Battery Management ...

Today's gold standard for solar containers. Why it's a favorite: This battery is a workhorse. It's very stable, tolerant of high temperatures, ...

The Energy Storage Controller Inverter Integrated Machine combines the functions of inverter, MPPT solar controller and utility charging to provide stable power supply for power-using ...
