China's massive 30-megawatt (MW) flywheel energy storage plant, the Dinglun power station, is now connected to the grid, making it the largest operational flywheel energy ...

A project in China, claimed as the largest flywheel energy storage system in the world, has been connected to the grid. The first flywheel unit of the Dinglun Flywheel Energy Storage Power ...

These Advanced Flywheel Energy Storage System (FESS) startups are changing the energy storage landscape with their innovations in 2025

In September 2025, Torus secured \$200 million in funding from Magnetar Capital, one of the largest single investments in flywheel technology to date.

But hold onto your lattes, because the 2025 flywheel energy storage field is rewriting the rules of clean energy with the grace of an Olympic figure skater. This technology ...

The Utah-based startup is launching a hybrid system that connects the mechanical energy storage of advanced flywheel technology to the familiar chemistry of lithium-ion batteries.
