A massive energy storage facility to be located in rural west-end Ottawa was recently approved by city council, but remains a contentious project among locals in the area.

BESS facilities are a specific type of energy storage system that store energy using batteries. Considerations for zoning must consider their intended use, preferred location and size.

A massive energy storage facility to be located in rural west-end Ottawa was recently approved by city council, but remains a ...

BESS is an emerging technology using batteries and associated equipment to store excess energy from the electrical grid, ...

OTTAWA - On April 15, Ontario's Minister of Energy, Stephen Lecce, who represents King-Vaughan, sent a letter to Ottawa Mayor Mark Sutcliffe expressing his support ...

Essentially, a BESS is a massive collective battery -- in this case a lithium ion battery -- to store electricity and distribute it as needed. ...
