What is a Multiplus-II inverter charger?

VICTRON ENERGY PURE SINE WAVE INVERTER: The MultiPlus-II inverter charger combines the functions of the MultiPlus and the MultiGrid. It has all the features of the MultiPlus, plus an external current transformer option to implement PowerControl and PowerAssist and to optimize self-consumption with external current sensing (max. 32A).

Why do you need a 12V inverter battery?

The battery powers your devices during outages, making it essential for reliable performance and safety over time. Amaron inverter batteries are built for durability. Known for their strength, these batteries combine advanced technology and long-lasting performance. Need a 12V inverter battery or something with extra power?

How to choose an inverter battery?

One easy way is to use an inverter battery calculator. This will help you calculate the energy needed to keep everything running smoothly when the power goes out. i.e., If you have a higher power requirement in your household, you should opt for a higher Ah battery (200Ah or 220Ah) for a better back up.

What is a power inverter?

An inverter, which is sometimes referred to as a power inverter, is a device used for converting a direct current (DC) to an alternating current (AC) and is an essential component of a UPS (uninterrupted power source) battery system.

With the wide assortment of products available at Lowe's, including all the most trusted brands, you can easily find the right power inverter with a battery for the job.
