What does Nordic batteries do?

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO₄) combined with an intelligent 3-level battery management system (BMS);

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

Volvo Energy is excited to introduce the Volvo PU500 BESS (Battery Energy Storage System), a new mobile power unit designed to meet the growing demand for flexible, ...

MEGATRONS 50kW Battery Energy Storage Solution is the ideal fit for large residential or light commercial applications. Utilizing Tier 1 LFP battery cells, each commercial BESS is designed ...

It features a high-quality container enclosure pre-installed with a battery rack, allowing clients to integrate their own battery packs, cooling systems, fire suppression systems, and other ...

Volvo Energy is excited to introduce the Volvo PU500 BESS (Battery Energy Storage System), a new mobile power unit designed to ...

With advanced lithium-ion battery technology and intelligent control system, our eBESS battery container offers a scalable and modular energy storage solution that is easily expandable as ...
