Containerized 5MW battery storage system designed for solar energy plants and utility scale battery storage applications. Delivers reliable, high-capacity energy storage with rapid ...

We are proud to announce the successful delivery of a cutting-edge factory energy storage power station designed to enhance clean energy utilization and grid stability.

Could sodium-sulfur technology transform energy storage? Duke Energy would like to know, which is why it's launching a pilot project ...

With a capacity of 5MW/10MWh, this energy storage facility is engineered to manage significant challenges, such as extreme winds, freezing temperatures, and frequent ...

The 5MW/10MWh Immersion Liquid-Cooling ESS is a next-generation utility-scale energy storage solution that integrates cutting-edge safety and efficiency. By immersing the battery in ...

The New York City Economic Development Corporation (NYCEDC) and NYCIDA announced the five BESS projects yesterday (23 ...
