---

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

Discover how off-grid solar powered by mobile money transforms energy access in Africa, helping millions achieve basic electricity by 2024.

No, installing an off-grid solar system is legal in virtually all African countries. In fact, many governments actively encourage it as a primary way to achieve rural electrification and ...

With our solar container we focus on solar energy, a sustainable and at the same time the most logical energy source in Africa. We have developed two different containerized systems: our ...

Since 2022, Bairen Energy Storage has deployed 47 battery energy storage systems (BESS) across West Africa. Their Ouagadougou flagship project--a 20MW/80MWh lithium-ion ...

With our solar container we focus on solar energy, a sustainable and at the same time the most logical energy source in Africa. We have developed ...
