Who makes solar panels in Armenia?

Solaron is the first manufacturer of solar panels in Armenia, which annual production capacity reaches about 60 megawatts. Brand "Solaron" is a registered trademark for products manufactured by Profpanel. In Solaron Company merged a team of highly qualified professionals with many years of experience in the business organization from scratch.

Where is Solaron available in Armenia?

Solaron's services are available throughout all regions of Armenia. Solaron is the first manufacturer of solar panels in Armenia, which annual production capacity reaches about 60 megawatts. Brand "Solaron" is a registered trademark for products manufactured by Profpanel.

What is a glass/glass Poly/monocrystalline module?

Glass/Glass poly/monocrystalline modules with unique Glass/Glass design and thermo-sealing protection at all perimeter of the module ensuring superior robust protection against UV, humidity, ammonia and salt corrosion. Safety laminating is ensured by PVB foil.

What is a 144-cell monocrystalline n-type solar module?

144-cell monocrystalline N-Type Topcon solar module with bifacial half-cell architecture and glass-glass construction. The monocrystalline, high-performance solar module impresses with its bifacial very high wattage and product guarantee. As a "multi-output module" it's ideal for usage in commercial plants, and large-scale plants.

The primary material used in solar panel production is silicon. Silicon wafers are used to create solar cells, which are then ...

Glass/Glass poly/monocrystalline modules with unique Glass/Glass design and thermo-sealing protection at all perimeter of the module ensuring superior robust protection against UV, ...

Mogen Solar MG10 Perc monocrystalline single glass 540-555Watt photovoltaic solar panel. The new series integrates 182mm silicon wafers, ...

Explore the potential for solar panel manufacturing in Armenia. Our 2025 analysis covers labor costs, supply chain challenges, and key opportunities for investors.
