How do I find the best solar inverter?

To find the best inverter for your needs, connect with a solar.com Energy Advisor to review custom designs and proposals. Best Price Guaranteed. Solar inverters are key to making the electricity generated by solar panels usable in your home. Here are some of the best options on the market today.

Which solar inverter should I Choose?

The solar inverter you choose will need to be compatible solar system type you are installing: Grid-tied inverters are meant for grid-tied solar systems, the most common system type. They manage a two-way relationship with the grid, exporting solar power to it, and importing utility power from it as required.

What makes Enphase a great solar inverter?

Enphase has had #1 market share for residential solar inverters for the past several years because they continue to push the envelope of innovation, service, and reliability. What makes Enphase unique is its microinverter design--a small, individual inverter on each solar panel--helping ensure maximum output and efficiency.

What types of solar inverters are available?

Browse our wide selection of off-grid and grid-tie solar inverters. We also offer marine/mobile, micro, and hybrid versions, capable of working in both off-grid and grid-tie applications. Questions about these, or perhaps string sizing for inverters? Call an altE solar system expert today at 877-878-4060!
