What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest. Panels lay flat on the ground.

How many households can a solar Container Supply?

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly electricity. At a location in Southern Europe it can even be up to 50 households due to the high solar radiation.

Why do you need a solar container unit?

Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere. With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours.

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight ...

We create an independent container equipped with a 3 [kW] inverter and 3.84 [kWh] energy storage. This concept does not require connection to ...

When you're looking for the latest and most efficient Average container energy storage price per 1GW in Belgium for your PV project, our website offers a comprehensive selection of cutting ...

We create an independent container equipped with a 3 [kW] inverter and 3.84 [kWh] energy storage. This concept does not require connection to the grid. The containers cannot be ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail ...

We have deployed Solar Power Container units at three of our mines and the results have been outstanding. The ease of transportation and short ...
