---

This 585W module outperforms traditional P-type modules with higher power output and enhanced durability. Equipped with N-type solar cells resistant to light-induced ...

The Bifacial Dual-Glass Solar Module offers enhanced energy production by capturing sunlight from both sides, increasing overall efficiency. The dual-glass design improves durability and ...

Advantages of double-glass structure: It enables bifacial power generation with a high ratio, maximizing light utilization and exhibiting excellent mechanical properties.

Premium Double Glass PV Module with 585W Output Power, Find Details and Price about Bifacial Solar Module 585W PV Module from Premium Double Glass PV Module with 585W Output ...

Featuring advanced 16-busbar (16BB) half-cell technology and a durable double-glass bifacial design, this module delivers higher energy yield, long-term reliability, and lower levelized cost ...

The Bifacial Dual-Glass Solar Module offers enhanced energy production by capturing sunlight from both sides, increasing overall efficiency. The dual ...
