Why should you choose Jenbacher containerized gas power generation solutions?

Jenbacher containerized gas power generation solutions offer a variety of benefits to our customers, thanks to distinctive product features: See for yourself.

Which genset containers are available?

All genset containers are also available with an option for  $-40^{\circ}\text{C}$  and most variants can be upgraded for  $+45^{\circ}\text{C}$ . A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

Are Jenbacher containers available for gas engines?

Jenbacher containers are available for Type 2, 3, 4 and 6 gas engines. Our containerized solutions ensure excellent reliability for your power and heat generation needs.

What size generator container do I Need?

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ambient conditions. Customized sizes to accommodate special project requirements are available on request.
