What is the cost of electricity in Djibouti?

The cost of electricity in Djibouti is 23.4 US cents per kWh (in 2017). This is higher than the costs in Ethiopia, which were 4.7 and 4.4 US cents/kwh in 2016 and 2017, respectively.

Does Djibouti have active production markets?

The depiction of birth and death of products in Djibouti during the 2004-2014 (Figure A4.7) confirms the existence of active production markets in Djibouti, as shown by a large number of births of products. However, only a small portion of these markets remain active over time.

How can Djibouti lower its energy prices?

Djibouti can reduce energy prices by diversifying energy sources toward renewables. The free port of Djibouti finances its own power supply but is not entitled to sell its surplus energy. A regulator is needed to fairly and effectively regulate electricity prices in Djibouti.
