Here's how I did it. There are many ways to skin a cat, and even more ways to add solar power to a shipping container. To be fair, I cheated a bit.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

In this step-by-step guide, I'll show you how to transform simple flower pots into a stunning water feature that runs solely on solar power. This post was transcribed by a member ...

Detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container. Use to build your own system ...

This is a detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container.

Fortunately, you can circumvent this costly investment by building your very own DIY plug-and-play solar battery box at a fraction of the price! The building process takes only 2 ...
