Are circuit breakers safe in Australia?

Yes, all our circuit breakers comply with Australian standards, including AS/NZS 3000:2018, ensuring they meet the necessary safety and performance requirements for electrical installations in Australia. Can I use these circuit breakers in a caravan or RV? Absolutely.

What are Australian circuit breaker standards?

In Australia, the evolution of circuit breaker standards has paralleled technological advancement. The current standard AS/NZS 3000:2018 incorporates the latest safety requirements and installation practices, ensuring circuit breakers provide reliable protection in Australian electrical installations.

What are the different types of circuit breakers?

Single-phase, double-phase, and three-phase circuit breakers play vital roles in protecting electrical circuits. Single pole circuit breakers, commonly known as 1 pole breakers, are often used in residential, commercial and industrial applications.

Which circuit breaker brand is best?

The market is filled with numerous circuit breaker brands, each with unique offerings and specifications. Australian electricians rely on trusted brands that meet local standards and provide reliable performance. A globally renowned brand, Clipsal's MAX9 range is the latest offering.
