We finance both solar plus storage projects as well as standalone storage projects. We know the asset class and can provide value with long-term, project-level debt.

Discover how Higher Wire shipping container solar systems provide reliable, off-grid power for remote worksites and projects.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or ...

Whether it's a village far from the grid that has blackouts or a disaster zone that has lost power altogether, the solar container can be shipped in to give the area power.

Disaster solar containers deliver clean, reliable emergency power in under 2 hours, offering rapid, fuel-free deployment for disaster relief.

These solar-integrated backup power units combine photovoltaic generation, lithium battery storage, and smart energy control into a compact, transportable container--delivering ...
