How many renewables will Papua New Guinea have in 2027?

The fourth MTDP set the target of 57%of renewables in the on-grid power capacity mix in 2027. In 2022,this share reached 30% (36% in the power generation mix). The Papua New Guinea Climate Change (Management) Act 2015 established the Climate Change Development Authority and the Climate Change and Green Growth Trust Fund.

Where is Papua New Guinea located?

Papua New Guinea (PNG for short) occupies the eastern half of the island of New Guinea(the western part belongs to Indonesia). The energy sector is under the control of the Department of Petroleum and Energy (DPE),through two main divisions: Petroleum Division (oil and gas) and Energy Division (electricity and renewables).

Does PNG have a power monopoly?

While PNG Power has an effective monopoly in most population centres areas,there are opportunities for the private sector in PNG's energy market,both for power generation and power wholesale outside of populous areas (e.g. to mines).

What is png biomass doing?

PNG Biomass is currently building the 25MW Markham Valley Solar Farm,PNG's first larger solar array. The Solar Energy Association is the peak body for the solar energy sector in PNG. PNG Biomass,owned by Oil Search Ltd,has a pilot 30 MW IPP focused on generating power from plantation timber.

Industry SnapshotRegulatory FrameworkGasHydropowerSolarOther RenewablesLegislative FrameworkExternal FundingAccording to the World Bank as of 2022, about 19% of PNG's population has access to electricity, but grid penetration in provincial capitals is less than 14%. PNG's per capita consumption ratio of electricity is also one of the lowest in the world. However, PNG's energy sector is currently undergoing a significant transit...See more on businessadvantagepng 6WresearchPapua New Guinea Energy Storage Market (2024-2030) | SizePapua New Guinea Energy Storage Industry Life Cycle Historical Data and Forecast of Papua New Guinea Energy Storage Market Revenues & Volume By Type for the Period 2020- 2030
