Can a hydroponic farm be powered by a solar panel?

We can also install industry-leading solar panel technology (optional), so your farm can be powered in some of the most remote environments on Earth. Our patented vertical hydroponic system allows people to cultivate highly nutritious food on small plots of land, with less labor and maintenance than traditional methods.

What is a hydroponic container farm?

Freight Farms' hydroponic container farms empower individuals, businesses, and communities to grow fresh food anywhere--whether in cities, classrooms, nonprofits, or beyond. No matter your farming goals, we have a solution to make it happen.

Does stealth power offer solar for shipping containers?

We are proud to partner with one of the leading providers of factory installed solar options for shipping containers. Learn more about the product and inquire below. Who is Stealth Power? Stealth Power provides fleet electrification and off grid solar solutions for customers of all kinds.

How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.
