How much do solar panels cost in South Africa?

Solar panel prices in South Africa vary. In Pretoria, costs range from R10 to R15 per watt/kW. Residential systems typically fall between 3kW to 10kW. Total costs can range from R70,000 for small homes to R350,000 for larger properties. Exchange rates significantly impact solar panel prices, as many components are imported.

Are solar panels worth it in Pretoria?

Higher efficiency panels come with a premium price but suit Pretoria's sunny climate. They produce more energy per square metre, beneficial for limited roof space. High-efficiency panels cost 15-30% more but can provide better long-term value.

9. What financing options are available for solar panel installations in Pretoria?
