What drives the growth of Mexico's lithium-ion battery market?

The size of the Mexican lithium-ion battery market is growing, with major downstream industries including automotive electronics, energy storage equipment, home appliances and power equipment. The growth of Mexico's electric vehicle industry and consumer electronics market is the main driving force for the growth of Mexico's lithium battery market.

How much lithium does Mexico import in 2023?

Mexico's total lithium-ion battery imports in 2023 were approximately US\$2.4 billion. From January to September 2024, Mexico's cumulative lithium-ion battery imports were approximately US\$1.3 billion, and it is expected to continue to grow in the next few years.

Does Mexico have a good policy environment for lithium-ion batteries?

According to the publisher's analysis, Mexico's free trade agreements (such as USMCA) also provide a good policy environment for its imported lithium-ion batteries, which further promotes the expansion of Mexico's lithium-ion battery imports.

How can Mexico take advantage of its lithium richness?

To take full advantage of its lithium richness, Mexico needs a comprehensive, internationally-minded industrial policy to promote and increase its lithium value chain. Currently, Mexico already has a comparative advantage to other countries, like Bolivia, Chile or Argentina.

Copper, graphite, aluminium, lithium, cobalt and manganese are all seeing sharp demand increases thanks to electric vehicles, energy storage, grid expansion and data centers.

In 2021, the Mexican lithium battery market decreased by -1.9% to \$X, falling for the second consecutive year after five years of ...

Historical Data and Forecast of Mexico Lithium-Ion Battery Energy Storage System Market Revenues & Volume By Residential Energy Storage Systems for the Period 2021-2031

Advancements in battery technology, particularly lithium-ion batteries, are leading to significant cost reductions, making energy storage more affordable and accessible for ...

How much is the price of lithium energy storage power in Mexico

Source: <https://gaeconsultants.co.za/Tue-29-Jun-2021-7681.html>

Website: <https://gaeconsultants.co.za>

The demand for residential lithium ion battery energy storage systems is expected to increase in the forecast period owing to increasing demand for energy independence from the national ...

The demand for lithium-ion batteries has grown rapidly, ...
