How safe is the Huawei Solar System?

Danie Poolman, Solar Manager at Sunspot Farm, has been very impressed with the Huawei solution. "This system has several layers of safety to protect against water exposure and ensure even heat dissipation," he says. "Each battery pack can identify faults, making it easy to address any potential risks safely and efficiently."

Why is Huawei partnering with South Africa?

Huawei is fully invested in the success of this partnership, and I will personally ensure our teams provide the support needed from engineering to execution." This collaboration builds reliable, future-ready infrastructure and accelerates South Africa's progress toward energy security.

Is Huawei a reliable company?

Product-Reliable: The company has a track record of testified product reliability, evidenced by a host of successful projects, such as the Golmud PV Plant, delivered in 2011 and has been in stable operations for 14 years; Up to now, Huawei has shipped over 620+GW of Smart PV and remains the number one in shipments for the last 10 years.

South Africa's Sunspot Farm powers itself with solar panels paired with Huawei's Luna2000 battery systems. For Sunspot Farm, it was not just about survival, it was also about how to ...
