What Is an Uninterruptible Power Supply (UPS)?

How many uninterruptible power supplies (UPS) suppliers does Thomas have?

Thomas has more than 640 Uninterruptible Power Supplies (UPS) suppliers across the US.

What are the different types of uninterruptible power supplies?

Three main types of uninterruptible power supplies are currently used: offline, line interactive, and on-line systems. Offline UPS systems are standby systems that provide battery power to equipment when the main power supply falls underneath a certain limit. These are mostly used in home and office applications due to their lower cost.
