ESB has reached a new milestone in securing Ireland's security of energy supply with 1GW of electricity storage connected to the network.

Brilliant news coming from ESB Networks as we now have 1 GW of Energy Storage connected to Ireland's electricity network! This figure includes 731.5 MW of battery ...

Today, ESB Networks has announced that it has 1,000 MW (one Giga Watt) of electricity storage connected to Ireland's network. This figure includes 731.5 MW of battery ...

Chris is now developing Ireland's most advanced Pumped Hydro Energy Storage System, to support the flexibility, cost efficiency and reliability of the Irish grid in its transition ...

The Turlough Hill Power Station is a pumped storage power station in Ireland, owned and operated by the Electricity Supply Board (ESB). Like all pumped-storage hydroelectric schemes, it makes use of two water reservoirs connected by a pressure tunnel: in this case an artificial reservoir near the summit of the mountain and the naturally occurring corrie lake, Lough Nah...

Turlough Hill, Ireland's only pumped storage power station, is located around 60 km south of Dublin City in the Wicklow Mountains. The station generates up to 292 MW during peak ...
