Who will build a solar PV plant in Cote d'Ivoire?

Abidjan, Cote d'Ivoire, August 7th, 2025 - IFC and the Government of Cote d'Ivoire today announced Infinity Power Holdings as the winning bidder to design, finance, build, and operate two grid-connected solar PV plants in Cote d'Ivoire.

Will Cote d'Ivoire get more solar power?

The project will help Cote d'Ivoire reach its goal of increasing the country's share of renewable energy to 42 percent by 2030 from only about 1 percent currently. By introducing more Solar PV capacity, Cote d'Ivoire is diversifying its energy mix while developing a more resilient energy sector.

Can decentralized solar mini grids support energy access in Cote d'Ivoire?

The study is determining the viability of building and operating decentralized solar mini grids to support energy access for up to 100 unelectrified communities comprising 190,000 persons in Cote d'Ivoire. The MMPE is implementing the project through its Direction Generale de l'Energie.

How will a new solar power plant benefit Cote d'Ivoire?

The clean electricity generated in this way can supply 35,000 households, benefiting around 150,000 people. The new plant will save 35,000 tonnes of greenhouse gas emissions every year- an important contribution to climate protection. The solar power plant is regarded as a model project for the expansion of solar energy in Cote d'Ivoire.

This article breaks down current commercial electricity pricing trends, identifies cost drivers, and reveals practical strategies to optimize energy expenses. Discover how solar hybrid systems ...
