Sumitomo Electric Industries, Ltd., has announced that its vanadium redox flow battery, together with its energy management ...

Sumitomo Electric Industries has installed a vanadium redox flow battery at Osaka Metropolitan University as part of a trial to optimize ...

Sumitomo Electric's Vanadium Redox Flow Batteries (VRFBs) deliver reliable, long-duration energy storage with superior safety, scalability, and sustainability.

Sumitomo Electric Industries, Ltd., has announced that its vanadium redox flow battery, together with its energy management system SEMSA, has been adopted as the ...

Sumitomo Electric Industries has installed a vanadium redox flow battery at Osaka Metropolitan University as part of a trial to optimize solar use and energy storage with AI.

As a result, solar power supply has exceeded the surrounding areas' electricity demand during the daytime, becoming a challenge. Financial details of the project were not ...
