Is Kazakhstan a good place to invest in solar power?

Kazakhstan has remarkable solar potential with a very well-designed auction system, a clear renewable capacity addition schedule, and a solid decarbonisation target. The country is now also including storage systems as part of its public procurement strategy in a move that will ease further integration of renewables into the grid.

Can solar power drive Kazakhstan's decarbonisation?

The focus now is on leveraging solar's comparative advantages to drive forward Kazakhstan's decarbonisation and harness its significant solar resources. This report builds on the first edition of solar investment opportunities in Kazakhstan.

Who collects energy statistics in Kazakhstan?

Official energy statistics in Kazakhstan are the responsibility of the Committee on Statistics under the Ministry of National Economy. In 2016, the energy data collection system was modified as part of modernisation efforts by the Committee on Statistics.

What's new in Kazakhstan?

This update contains the latest economic and political advancements in the country, including the announcement of Kazakhstan's new decarbonisation target for 2060, and the recent Memorandum of Understanding signed between the EU and Kazakhstan, stepping up cooperation on renewables, green hydrogen, and battery value chains.

This paper presents a scenario based assessment of energy storage systems (ESS) as a flexibility resource for Kazakhstan, using an open, replicable modeling workflow in PyPSA.

The focus now is on leveraging solar's comparative advantages to drive forward Kazakhstan's decarbonisation and harness its significant solar resources. This report builds on ...

Kazakhstan, unlike global leaders such as China and the U.S., lacks experience in deploying energy storage systems on an industrial scale. Energy storage is seen as a crucial ...

The development of these two RE plants is highly relevant to the implementation of Kazakhstan's Nationally Determined Contributions under the Paris Agreement, as it addresses two critical ...
