---

As Kosovo aims for 35% renewable integration by 2027 (up from current 6%), container systems are becoming the glue holding everything together. Hybrid solar+storage projects are popping ...

This paper investigated integrating renewable energy, especially wind and solar sources, into the medium- and long-term plans at the Gjilan 5 substation to enhance energy quality in the area.

The government of Kosovo this week announced it will build a battery energy storage system (BESS) with a capacity of 200MWh-plus to deal with the country's energy crisis. [pdf]

To increase the production of renewable energy and reduce the environmental impact of the coal operations for power generation in Kosovo

MW/MWh (combining multiple containers). The containerised energy storage system allows fast installation, safe operation and controlled environmental conditions. Our containerised energy ...

Ongoing KOSTT projects expected to be finalized in the next 2 years Projects Construction of the new GIS system Substation 110/35/10(20)kV Ferizaji 3 (Kastriot)
