On 1 September 2025, Electricity of Laos Generation Public Company (EDL-Gen) signed an agreement with private firms from Singapore to develop a pumped-storage hydropower (PSH) ...

The project aims to maximise Laos' potential as a key energy source in South-East Asia while identifying effective energy storage solutions for long-term sustainability.

Over the medium term of two to three years, he said the company has planned to develop value-added projects such as floating solar and energy storage systems and enhance project efficiency.

With 80% of its electricity already coming from renewables (mostly hydropower), Laos is now betting big on energy storage solutions to juice up its regional influence. But how ...

It is the first large-scale solar project in Laos developed by a Chinese company. The initial phase of the project has a capacity of 50.1 MW, along with a 10 MWh energy storage ...
