Is Liechtenstein a solar power station?

Samina Power Station, currently the largest of the domestic power stations, has been operational since December 1949. In 2011-2015, it underwent a reconstruction that converted it into a pumped-storage hydroelectric power station. In recent decades, renewable energy efforts in Liechtenstein have also branched out into solar energy production.

What is the oldest power station in Liechtenstein?

Lawena Power Station is the oldest in the country, opened in 1927. The power station underwent reconstructions in 1946 and 1987. Today, it also includes a small museum on the history of electricity production in Liechtenstein. Samina Power Station, currently the largest of the domestic power stations, has been operational since December 1949.

What is Liechtenstein's national power company?

Liechtenstein's national power company is Liechtensteinische Kraftwerke (LKW, Liechtenstein Power Stations), which operates the country's existing power stations, maintains the electric grid and provides related services. In 2010, the country's domestic electricity production amounted to 80,105 MWh.

What is energy in Liechtenstein?

Energy in Liechtenstein describes energy production, consumption and import in Liechtenstein. Liechtenstein has no domestic sources of fossil fuels and relies on imports of gas and fuels. The country is also a net importer of electricity.
