---

Each system is constructed in a environmentally controlled container including fire suppression. Each complete system offers users a hassle free 10+ year service life and hold internationally ...

Built using advanced Lithium-Iron Phosphate (LFP) cells, intelligent Battery Management Systems (BMS), and a fully integrated Energy Management System (EMS), our 1 MWh solution ...

GSL Energy's 1MWh-5MWh Battery Energy Storage System (BESS) in a 20FT container offers a scalable, reliable, and efficient solution for commercial and industrial energy storage.

It enables large-scale energy storage and dispatch for industrial facilities, microgrids, and renewable power plants. The modular design makes it easy to transport, ...

LIBERI is an advanced containerized energy storage solution designed for industries, commercial spaces, EV charging, and residential backup. With high-capacity lithium battery modules, ...

The system adopts lithium iron phosphate battery technology, with grid-connected energy storage converter, intelligent control through energy management system (EMS).
