This is a significant development for renewable energy projects, facilitating the integration of storage solutions to optimize energy production and dispatch, by also ...

North Macedonia's 2023 Energy Law Amendment introduced juicy user-side storage incentives. Think of it as a "buy one, get one free" deal for solar panels paired with batteries.

This is a significant development for renewable energy projects, facilitating the integration of storage solutions to optimize energy ...

North Macedonia, which has been attracting investments in battery factories, is in talks on a project worth up to EUR 360 million, according to Prime Minister Hristijan Mickoski.

As Macedonia accelerates its shift toward sustainable power solutions, the Bitola Energy Storage Power Supply project emerges as a critical infrastructure development.

That's exactly what North Macedonia is aiming for with the Skopje Energy Storage Power Station, a grid-scale battery project that's turning heads across the Balkans.
