What is ENERC liquid cooled energy storage battery containerized energy storage system?

EnerC liquid-cooled energy storage battery containerized energy storage system is an integrated high energy density system, which is consisting of battery rack system, battery management system (BMS), fire suppression system (FSS), thermal management system (TMS) and auxiliary distribution system.

What is ENERC liquid cooled container?

Totally, EnerC liquid-cooled container's configuration is 10P416S. Total 52 pieces lithium iron cells (280Ah/3.2V) in series connection are used for every battery module. For safety protection, an internal high speed DC fuse is included, and removable MSD switch can cut off the high voltage connection during transportation process.

What is a liquid cooling system?

The integrated frequency conversion liquid cooling system helps limit the temperature difference among cells within 3 °C, which also contributes to its long service life. It has a nominal capacity of 372.7 kWh with a floor space of just 1.69 square meters. The system is suitable for inverters with operating voltages ranging from 600 to 1500 volts.

How many battery cells are in a ENERC liquid cooled container?

The battery system is composed of 10 battery racks in parallel. Each battery rack contains 8 battery modules by series connection, each battery module is composed of 52 battery cells in series connection also, so each rack contains 416 battery cells. Totally, EnerC liquid-cooled container's configuration is 10P416S.

From ensuring stable power supply for industrial parks to optimizing energy storage for renewable energy systems, this system can be customized to suit a wide range of applications.

Individual pricing for large scale projects and wholesale demands is available. Since energy storage is a key part of energy transition and power transformation, CATL has always been ...

Liquid Cooling Containerized Energy Storage Features SAFE AND RELIABLE Approved industry certification of Cell pass test by UL/TUV/IEC Multi-level design for fire control

The GSL-BESS-3.72MWh/5MWh Liquid Cooling BESS Container is a state-of-the-art energy storage solution that integrates advanced technologies, including intelligent liquid cooling and ...
