What is a smartgrid project in Marseille?

This project, located in the port areas of Marseille, will provide local renewable energy production to complement the terrestrial electricity source (Enedis national grid). The plant will be installed on the roofs of 6 port buildings, producing a total output of 9 MWp. It will be controlled by Smartgrid software.

What are factory-packaged containerized generator sets?

Our factory-packaged containerized generator sets are designed to address these challenges comprehensively. They offer a reduced footprint, improved ease of transportation and significantly shorter lead times.

Why should you choose Jenbacher containerized gas power generation solutions?

Jenbacher containerized gas power generation solutions offer a variety of benefits to our customers, thanks to distinctive product features: See for yourself.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

Find your containerized generator set easily amongst the 314 products from the leading brands (XCMG, GELEC ENERGY, GRUPEL, ...) on ...

Before EU's stricter environmental regulations, Marseille Fos took early action to become a pioneer of OPS solutions in the Mediterranean. CENAQ delivers zero-emission port calls by ...

Find your containerized generator set easily amongst the 314 products from the leading brands (XCMG, GELEC ENERGY, GRUPEL, ...) on DirectIndustry, the industry specialist for your ...

Port of Marseille - Green mobile energy for reefer containers As part of the Port of Marseille Smart Port Challenge 2, CMA CGM and the start-up Hélion developed a solution to ...

MECCA high voltage generators are high practicability, strong reliability, allowing long-term stable operation, safe and efficient, which are ideal for applications where power and efficiency are a ...
