What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

What is a solar container?

The Solar container is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest. Panels lay flat on the ground.

How much solar area does a mobile solar container offer?

Up to 70 m<sup>2</sup> PV area. Our Mobile Solar Container is available in version 20'. It offers a vast solar area of up to 700m<sup>2</sup>. One person in 15 minutes. It is really that fast to prepare the container. It is especially useful in bad weather when you can quickly fold the panels to prevent any potential damage.

How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

Thanks to its robust hydraulics containers are always ready to unfold the panels within minutes. Convenient levers make it even easier to operate for only one person. Mobile Solar Container ...

The mobile solar containers and portable solar chargers are designed with easily foldable solar panels which makes them ideal for remote areas and versatile applications like mining, ...

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with
