Why should you choose a sunroom contractor in Long Island?

Sunrooms, also known as solariums and four season rooms, offer more space for entertaining, relaxing, and working. Choosing a top sunroom contractor in Long Island, NY, like us, can help you maximize these benefits. Sunrooms are designed to let in the maximum amount of natural light.

What is a greenhouse?

A growing environment designed specifically for you. A greenhouse is an aluminum-framed structure, glazed with glass or polycarbonate, that is used to propagate and/or grow plants. Solar Innovations® designs and manufactures custom greenhouses to each customer's exacting specifications, no matter the size or purpose.

What are the best quality greenhouses?

Solar Garden Custom High-End Attached Sunrooms are the best quality greenhouses. Solar Gardener lean to greenhouses are simple to install, easy to upgrade, and can be designed to meet virtually any building code. In addition, these units can be customized with numerous accessories and decorative options.

Where are greenhouses made?

As one of the largest North American manufacturers of commercial greenhouses and indoor grow facilities, we have manufacturing facilities in the U.S. and Canada. We design, build, and recommend automated greenhouse systems optimized to work together harmoniously, for the highest level of control and efficiency.
