How can e-bike battery swapping and charging cabinets reduce apartment fires?

The measure is designed to reduce apartment fires by moving more battery charging and storage to safe, Fire Department New York (FDNY) approved cabinets on sidewalks. The agency also published a step-by-step guide with information on the process to apply for e-bike battery swapping and charging cabinets on public sidewalks.

Do e-bike battery swapping and charging cabinets need a permit?

All e-bike battery swapping and charging cabinet models will require approval by FDNY's Technology Management unit. The New York City Department of Buildings will be responsible for issuing electrical permits for cabinet installation.

Can an e-bike battery swapping & charging cabinet be installed outside?

Under the rules, an e-bike battery swapping and charging cabinet may be installed outdoors and adjacent to buildings with ground floor commercial and community facility uses and residential buildings with five or more dwelling units through a revocable consent.

How long does it take to charge a e-bike battery?

One of the startups, Swiftmile, is building fast charging stations that look like bike racks and can charge an e-bike battery within two hours. The other two participating companies, Popwheels and Swobbee, are proposing a different, even quicker solution: battery swapping.
