Alarm goes off: "To go off" means "to trip, to start sounding". Something has triggered the alarm, and it went off (started sounding, flashing lights, what not). This is about ...

An off-grid solar power system operates independently from the local utility grid. It generates power directly from the sun, stores it in batteries, and uses it as needed.

Your choices (get off work, finish work, leave work) will all work fine finishing the question about a normal working day. I don't see much difference in formality, if any.
