Creating mechanisms that make clean, reliable power accessible to all will ensure Pakistan's rapid shift to solar and storage strengthens the entire power system.

London-headquartered renewables developer Oracle Power has begun feasibility studies for a 1.3GW solar, wind and battery energy storage system (BESS) project in Pakistan.

SGS proudly announces the successful delivery of a comprehensive technical report for Wind Resource Assessment (WRA) and Wind Turbine Generator (WTG) siting for a ...

Developer Oracle Power and China Electric Power Equipment and Technology (CET) are looking to develop and build a 1.3GW project ...
