Explore how cutting-edge battery energy storage technology is transforming renewable energy adoption in Podgorica and why it matters for businesses and households alike.

Solar energy containers encapsulate cutting-edge technology designed to capture and convert sunlight into usable electricity, particularly in remote or off-grid locations. ...

Photovoltaic container energy storage solution 500KW 1MWH Designed for solar power plants, this innovative solution combines advanced Lithium battery storage technology with a high ...

Imagine giving retired electric vehicle batteries a new purpose - that's exactly what second-life battery energy storage systems (BESS) are achieving in Podgorica.

A 72V lithium battery is a high-voltage energy storage unit with a nominal voltage of 72 volts, designed for applications requiring robust power output and efficiency. [pdf]

We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. Lithium batteries are ...
