Integrating necessary power equipment such as transformers, switchgear, energy storage units and control modules into a transportable ...

Whether it's a telecom base station in a mountainous region, a logistics hub in an isolated industrial zone, or temporary power needs after a natural disaster, a Battery ESS ...

Energy Storage Is Powering New York's Clean Energy TransitionEnergy Storage SafetyAn Expanded Goal of 6 Gigawatts by 2030In 2019, New York passed the nation-leading Climate Leadership and Community Protection Act (Climate Act), which codified some of the most aggressive energy and climate goals in the country, including 1,500 MW of energy storage by 2025 and 3,000 MW by 2030. In June 2024, New York's Public Service Commission expanded the goal to 6,000 MW by 2030. St...See more on nyscrda.ny.gov/j-net.cnIntegrated Solar-Wind Power Container for CommunicationsThis large-capacity, modular outdoor base station seamlessly integrates photovoltaic, wind power, and energy storage to provide a stable DC48V power supply and optical distribution.

Container-type energy base station: It is a large-scale outdoor base station, which is used in scenarios such as communication base stations, smart cities, transportation, power systems ...

As New York continues to invest and build a cleaner grid, energy storage will allow us to use existing resources more efficiently and phase out the dirtiest power plants.

Our energy storage solution is flexible in design and can be seamlessly integrated with various existing base station power systems. The modular design can better adapt to different types of ...
