What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects--all while reducing carbon footprint and cutting energy costs.

What is a solar container build?

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency setups, or as a portable backup energy system. What's included in a solar container build?

Are solar containers safe?

Yes-- all solar containers are built from weatherproof, lockable shipping containers. Your gear is safe from the elements and secure from unauthorised access. Can the system be expanded later on?

Does scsau offer transparent shipping container pricing?

At SCSAU, we provide transparent pricing on all container types including new, used, refurbished, and custom-modified units. Our Australia-wide network allows us to deliver competitive prices and fast delivery, no matter your location. What Affects Shipping Container Pricing?
