What are the major wind energy projects in Riyadh?

Stay proactive with real-time data and expert analysis. Wind energy projects include the 2GW Starah project and the 1GW Shaqra project in the Riyadh region. The collective agreement marks the largest-ever single-phase commitment to renewable energy development internationally.

What are the major solar projects in Riyadh?

Looking ahead, several major solar projects are in the planning stages, such as Al-Sadawi Independent Power Producer Solar Power Plant, set to have a capacity of 2,000 MW. Sudair Solar PV Project has a planned capacity of 1,500 MW in Riyadh.

How many MW will a solar power plant generate in Riyadh?

Sudair Solar PV Project has a planned capacity of 1,500 MW in Riyadh. Al-Masa'a IPP Solar Power Plant will generate 1,000 MW in Hail, while Ar Rass Solar PV Park is expected to have a capacity of 700 MW in Al-Qassim.

How many solar projects will Saudi Arabia invest in?

This agreement covers seven large-scale projects: five solar photovoltaic plants and two wind power facilities, distributed across key regions in the Kingdom. The total investment is estimated at \$8.3 billion (over SAR 31 billion), aiming to deliver 15,000 MW of renewable energy -- 12,000 MW from solar and 3,000 MW from wind.

The programme includes two large-scale wind farms -- Starah (2,000 MW) and Shaqra (1,000 MW) -- both located in Riyadh province.
