Where can I find a San Jose's EV charging station?

San Jose's leads the nation in public charging stations per capita. Find your nearest charging station at PlugShare. PG&E, in partnership with Ecology Action, will install Level 1 and Level 2 EV chargers at multifamily housing units, not-for-profit organizations and small businesses, at no cost for sites located in a priority community.

Why should you buy an EV in San Jose?

SJCE is committed to getting more San Joseans in EVs to help reduce air pollution and preserve our planet for future generations. Save money! EVs have lower fueling and lifetime maintenance costs, including battery replacement. Electricity costs less than \$2 for the equivalent gallon of gasoline. Drive past traffic!

Can bidirectional EVs be used as mobile storage?

In contrast to stationary storage and generation which must stay at a selected site, bidirectional EVs employed as mobile storage can be mobilized to a site prior to planned outages or arrive shortly after an unexpected power outage to supplement local generation or serve as an emergency reserve.

Can bidirectional electric vehicles be used as mobile battery storage?

Bidirectional electric vehicles (EV) employed as mobile battery storage can add resilience benefits and demand-response capabilities to a site's building infrastructure.
