Is Lyten acquiring cuberg's San Leandro lithium-metal battery manufacturing facility?

SAN JOSE, Calif., Nov 13, 2024 - (BUSINESS WIRE) - Lyten, the supermaterial applications company and world leader in lithium-sulfur batteries, announced today that it will acquire Cuberg's San Leandro lithium-metal battery manufacturing facility and cell making equipment.

Where are Lyten batteries made?

Cuberg's lithium-metal battery production equipment and facilities in San Leandro, CA will be converted to manufacture lithium-sulfur, adding to Lyten's current footprint in San Jose. Lyten's expansion in manufacturing follows the October announcement of the company's plans to build a 10 GWh lithium-sulfur gigafactory in Nevada.

How many MWh of lithium-sulfur batteries does Lyten manufacture?

Lyten to manufacture up to 200 MWh of Lithium-Sulfur batteries in California to meet growing demand from defense, drone, micromobility, and other energy storage applications.

What energy storage container solutions does SCU offer?

SCU provides 500kwh to 2mwh energy storage container solutions. Power up your business with reliable energy solutions. Say goodbye to high energy costs and hello to smarter solutions with us.

Adding Containerized Battery Energy Storage System (BESS) to solar, wind, EV charger, and other renewable energy applications can reduce energy costs, minimize carbon footprint, and ...
