A secure, solar-powered drone delivery station that automates package drop-offs for apartment residents using intelligent, sustainable, and user ...

We develop a novel multi-objective coverage optimization model for UAV integration in smart city operations.

Due to the lack of a link to a utility company, this enables the product to be considerably more scalable. Self-charging via solar drones is completely off-grid. The chargers ...

This paper contributes to the literature by presenting the concept, detailed design, realization, and tests of a prototype of a networked system of a set of autonomous docking ...

A secure, solar-powered drone delivery station that automates package drop-offs for apartment residents using intelligent, sustainable, and user-friendly technology.

Discover the future of autonomous drone logistics with our groundbreaking Solar-Integrated Container Hangar, engineered exclusively for vertical takeoff and landing (VTOL) fixed-wing ...
