What is Singapore's solar energy system (ESS)?

Built across two sites on Jurong Island, our ESS enhances Singapore's grid resilience by mitigating the impact of solar intermittency as the republic progresses towards achieving its 2030 solar target of at least 2GWp and energy storage systems deployment of 200MWh beyond 2025.

Why should you install ESS / solar battery systems in Singapore?

This gives you greater energy control, cost savings, and reliability across any site type in Singapore. Integrating an ESS / solar battery system offers numerous advantages: Use more of the clean energy generated by your own solar panels instead of exporting it.

What is a solar energy storage system?

It provides clean, silent electrical energy on demand, making it the core of any power solution reducing the reliance on traditional diesel generators. Our solar and wind compatible battery energy storage system captures solar and wind energy during daylight or high wind hours.

What is a solar and wind compatible battery energy storage system?

Our solar and wind compatible battery energy storage system captures solar and wind energy during daylight or high wind hours. The Infinity Cube BESS then stores any excess power that is not immediately used. This stored energy is then available at night, during peak demand, or when solar or wind generation is low.

PAC off grid battery storage 40kwh all in one lithium batteries for solar system, outdoor use, with 8kw split phase hybrid inverter, for home storage.

Peak cutting and valley filling, self-use, and hybrid grid, off grid.

With flexible energy storage capacities ranging from 28.6kWh to 57kWh and PCS power outputs of 10kW to 30kW, it offers unmatched scalability and ...

Ideal for both on-grid and off-grid power requirements, it also integrates seamlessly with solar and wind power through hybrid power setups, enabling sustainable and independent energy ...

Built across two sites on Jurong Island, our ESS enhances Singapore's grid resilience by mitigating the impact of solar intermittency as the republic ...
