---

The Colorado-based company touts its battery as the first ever fully passive megawatt-hour (MWh) scale battery storage system, the ...

New developments in sodium battery materials have led to developments that could pave the way for lower-cost sodium-ion batteries that can compete with lithium-ion ...

Peak Energy's NFPP grid storage system marks a landmark shift in America's burgeoning energy storage business by capitalizing on the advantages of sodium-ion batteries ...

After China, the US now gets its first grid-level energy storage system with sodium-ion batteries that require no active cooling and cost a third less than a traditional BESS with ...

The Sodium-ion Alliance for Grid Energy Storage (SAGES), led by PNNL, will focus on demonstrating high-performance, low-cost, safe ...

Researchers associated with the Sodium-ion Alliance for Grid Energy Storage (SAGES) have revealed new results on sodium-battery design, a new alternative that's ...
