The compact design of the cabinet allows for easy installation and space optimization. With a capacity to store solar power, reducing their reliance on traditional power sources.

Explore our modular outdoor communication cabinet for efficient, safe, and reliable hybrid energy solutions. Discover more!

This design ensures that the cabinet can withstand extreme temperatures and harsh conditions, such as those found in the Sahara Desert, providing reliable power for communication base ...

It is used in scenarios such as communication base stations, smart cities, transportation, power systems and other edge sites to provide stable power supply and optical distribution networks.

EK-SG-R01 is a large outdoor base station with large capacity and modular design. This series of products can integrate photovoltaic and wind clean energy, energy storage batteries, and ...

It is used in scenarios such as communication base stations, smart cities, transportation, power systems and other edge sites to provide stable ...
